Street and No. or P.O. Box No. City or TownCA 90632-2833, hereby make^s application for permission to appropriate the public
State and Zip Code No.waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a
copartnership or association, give names of members.) April 1, 1977; CaliforniaTax I.D. #25-05279251. The source of the proposed appropriation is Underground/semi-perched water zone at the
Name of stream, lake, spring, underground or other source
approximate depth of 20 feet below grade.2. The amount of water applied for is 4.4883 gallons/minute (0.01 second feet)/well second-feet
One second-foot equals 448.83 gals. per min a total of 0.08 cfs
8 wells(a) If stored in reservoir give number of acre-feet. Not applicable3. The water to be used for. Temporary dewatering for remedial contamination clean-up.
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated. _____

(b) Stockwater, state number and kinds of animals to be watered. _____

(c) Other use (describe fully under No. 12. "Remarks") See No. 12.

(d) Power:

(1) Horsepower developed. Not applicable(2) Point of return of water to stream. Not applicable5. The water is to be diverted from its source at the following point situated within the NW $\frac{1}{4}$ SW $\frac{1}{4}$,
Describe as being within a 40-acre subdivision of public
Sec. 27, T. 21S, R61E, M.D.M, Clark County, Nevada with specific points of
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.diversion within 40-acre subdivision shown on attached map. Surveying ties
specified upon the attached sheet, Item 5 (Received Feb. 11, 1991)6. Place of use. NW $\frac{1}{4}$ of SW $\frac{1}{4}$, Sec. 27, T21S, R61E, M.D.M. Clark County, Nevada
Describe by legal subdivision. If on unsurveyed land, it should be so stated.7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day8. Description of proposed works. (Under the-provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) Ground water wells- approx. 25' deep
State manner in which water is to be diverted, i.e. diversion structure, ditches andflumes, drilled well with pump and motor, etc.

9. Estimated cost of works.....Undetermined number of wells - \$32,000.00; Air stripper - \$7,500.00; Electrical - \$10,000.00

10. Estimated time required to construct works.....Approximately six (6) months.

.....If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use.....Not applicable

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

See attached page.

Estimated pumping rate - 7.24 ac. ft/yr/well.

Total duty - 58 AFY

APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with said agency. The right will cease to exist upon termination of clean up activity as determined by the Nevada Division of Environmental Protection. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and records of this measurement shall be submitted on an annual basis. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water granted herein at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....0.08.....cubic feet per second, but not to exceed 18.87.....million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before.....August 14, 1993

Proof of completion of work shall be filed before.....September 14, 1993

Application of water to beneficial use shall be filed on or before.....August 14, 1996

Proof of the application of water to beneficial use shall be filed on or before.....September 14, 1996

Map in support of proof of beneficial use shall be filed on or before.....N/A

Completion of work filed.....

Proof of beneficial use filed.....

Cultural map filed.....

Certificate No.....Issued.....

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E., State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 14th day of August

A.D. 1991.....

.....State Engineer

CANCELLED.....BECAUSE OF FAILURE OF APPLICANT TO COMPLY WITH THE PROVISIONS OF PERMIT

.....STATE ENGINEER

(0)-2145 (Rev. 9-89)

(PERMIT TERMS CONTINUED)

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from each well and the amount of water used.
